REASONS FOR ALLOWANCE

Drawings

- 1. Figures 4-5 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
- 2. The empty boxes in the Figures 1-3, 7, and 12 should be labeled.
- 3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application as indicated in paragraphs 1 and 3 above. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

- 4. Claims 1-14 are allowed.
- 5. The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses or suggests a synchronization method for a distributed

Application/Control Number: 09/918,614

Art Unit: 2637

control system including a transmission unit transmitting cyclically emitted synchronization signals, a reception unit receiving and feeding synchronization signals to a clock generator via a phase regulator of a phase locked loop, comprising steps: calculating a subordinate uniform correction value for each clock pulse of the subordinate clock signal; and correcting the subordinate clock signal based on the correction value such that instantaneous phase error is substantially uniformly distributed over the pulses of the subordinate clock signal between the first and second synchronization signals; and correcting the subordinate clock signal such that the clock pulses of the subordinate clock signal are essentially equidistant from one another by applying the instantaneous phase-regulated value substantially uniformly over the clock pulses of the subordinate clock signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Southard (U.S. Pat. 4,598,257) discloses a clock pulse signal generator system.

Kanai et al (U.S. Pat. 5,003,559) disclose a digital transmission system.

Ott (U.S. Pat. 6,145,508) discloses a clock synchronization circuit.

Deluigi et al (U.S. Pat. 6,163,185) disclose a phase frequency detector.

Application/Control Number: 09/918,614 Page 4

Art Unit: 2637

Richard et al (U.S. Pat. 6,304,623) disclose a precision timing generator system and method.

Finsterbusch et al (U.S. Pat. 6,603,830) disclose a receiving unit.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to KHAI TRAN whose telephone number is (571) 272-3019. The examiner can normally be reached on 7:00AM - 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JAY PATEL can be reached on (571) 272-2988. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
